Exemption 6 applies to all [REDACTED] from Williamsburg Receiving and Storage (Cherry Blossom LLC) called to report odors from the cherry finishing operations. Earlier in the day, [REDACTED] called Al Retlewski, AQD to give specifics on the complaint. Al proceeded to the site this am to check out odors per requirements of the ACO we have with the company.

Follow up actions will be determined upon Mr. Retlewski's return.

AQD site inspection determined that odors were present, but not to nuisance conditions. Operational controls-tank covers, closed doors-need to be closely watched by the company. Odor masking agent was not available but was on order. See files for full AQD report.

**Description of Material Released**

**Is Material Release Ongoing at Time of Call** No

**Status of Investigation** Other

**Incident Resolved By Water Bureau** No

**Responsible Party Information**

**Confirmed Responsible Party** Yes

**Responsible Party Has MDEQ Permit** No

**MDEQ Permit Number**
